# Make Every Contact Count: Pregnancy COVID-19 Vaccination The Facts for Health Care Professionals

COVID-19 Vaccination is <u>SAFE</u> in pregnancy

**>270,000 pregnant women** in the UK and USA have had a vaccine with no safety concerns

Right for Women

16 in 100 pregnant women in hospital with symptomatic COVID-19 are admitted to ITU

97% of pregnant/postpartum women with COVID-19 admitted to ITU since June 17th are unvaccinated

Right for Babies

Pregnant women with COVID-19 have:

2x increased risk of stillbirth

2x increased risk of pre-term birth

1 Reinforce vaccine safety

2 Share this information with your colleagues

To improve vaccination rates in pregnancy the message from healthcare professionals needs to be consistent:

'The COVID-19 vaccine is <u>SAFE</u> in pregnancy, it could save your life or that of your baby'
